

NEWS OF THE SOUTH SIDE

SOUTH SIDE POLICE COURT
The police court today was held before Magistrate Davies, commencing at 10 o'clock, and continued until 11:30 p.m. The accused, charged with being drunk, were fined \$5.00 and \$10.00 each, and the others were fined \$5.00 each. The court was held in the police court on Tuesday morning and had failed to keep its promise.

HOT SHOT FOR ROGERS' CAMP
(Continued from Page 1)
The service was the cheapest in Canada while in Manitoba it was the most expensive service and yet the latter had lost \$100,000.

ASSISTANT SECRETARY RESIGNS
Official of U. S. Treasury Department Resigns
Washington, D.C., July 3.—A. J. MacVeagh, assistant secretary of the treasury, has resigned today, tendering his resignation to President Taft. An assistant secretary of the treasury, in a special letter to the president, Mr. A. J. MacVeagh stated that he was resigning because of the attitude of Secretary MacVeagh toward him and his subordinates in political circles.

HOPE GONE HOME
The children who were struck on the head with a ball of a revolver in the last round of the shooting, have been recovered. The boy who was hit, it now appears, probably killed himself in the confusion of the crowd which chased him. The coroner's inquest will be resumed this morning to hear the results of the postmortem. It seems that the boy was found in his bed and his wife, who was in the room, was found in the room.

DIED IN HOSPITAL
Mrs. Sarah McClure, age 77 years, wife of Albert McClure, of 22nd avenue S. E., died in the hospital on Tuesday night. The funeral will be held at 2 p.m. on Thursday from Waterbury undertaking parlors.

SOUTH SIDE HOTELS
Elizabeth House—Jas. S. Mendenhall, M. H. Mendenhall, Timothy J. Mendenhall, M. H. Mendenhall, Mendenhall, A. Water, M. Water, M. Water.

LITTLE BETTING ON THE JOHNSON-FLYNN FIGHT

WATSON'S (The Boxing Game) Ave.
London, July 3.—The board of trade today and Lord Mervyn, the president judge, announced that the fight would be produced within a "reasonable time."

East Las Vegas, N. M., July 3.
A few more fight enthusiasts were added last night and today to the already gathered here to witness the Johnson-Flynn battle tomorrow, but the main body of the spectators will not arrive until tomorrow, when several special trains are due.

The fight fans found little to amuse themselves. It was quiet at the fight camp, both men did a little light work to keep in trim and develop their time by working rounds that they were confident of victory.

There has been little change in the betting. Johnson to win money at 2 to 1 being offered with few takers. The board shows few record bets. The 27th supporter makes an offer of \$100 to \$100, and do not appear anxious to get their money up.

One frank bet, thirty to fifty, that Johnson will knock Flynn down before the fourth round, is recorded, and immediately loses. Johnson's manager, who is the fight, is the fight.

As to the result being the slowness of the use of the fastest fight, organization, because the eleventh round of the last Johnson-Flynn bout proved to be the freeman's undoing.

The most of the round betters, however, are down on the fourteenth to sixteenth, with a scattering here and there on the twentieth, thirty, and forty.

As an appetizer to the big show to follow, the boxing, of Dallas, and "Deep" Embold, of Denver, who fall into the hands of the heavyweight class, will try out promoter Cushey's wares.

TO REST IN PAINTER'S COFFIN
Sir L. Alma-Tadema Will be Buried in St. Paul's Cathedral.

London, July 3.—It is announced today that Sir L. Alma-Tadema, R.A., who died last week, is to be buried in the vaulting corner in the crypt of St. Paul's cathedral, near the bones of Nelson and Wellington and among some of the most renowned of its predecessors in art, including Sir Christopher Wren, the builder of the cathedral, Sir Joshua Reynolds, Sir Thomas Lawrence, Sir Edward Burnish, Sir John Millar, an Italian painter, his own contemporary.

LARGEST DRY DOCK IN WORLD
Will be Built at Lewis or on the St. Charles River.

Ottawa, July 2.—Several bids have been received by the government for the construction of a dry dock which will be probably the largest of its kind in the world, at either Lewis or on the St. Charles river, just east of the city of Quebec. The government has the report of Mr. Wilson, an English expert, on the two sites, but it has not been made public. The dock will be 1150 feet long, 137 feet wide and 27 feet deep. It will not be built by the government, but the company submitting the best plans will receive a bonus of 1-1/2 per cent for 35 years on an expenditure of five million.

ITALY DOESN'T NEED GOLD.
No Foundation For Report That American Gold Is Going to Italy.

Rome, July 2.—In Italian financial circles it is emphatically stated that no foundation for the idea apparently in current in Wall Street that gold sent from the United States are finding their way indirectly to Italy exists. Italy receives only the small amount of gold made necessary by the ordinary transactions between Italian and American bankers.

The rumors possibly originated in the fact that when the Italian government's intention to issue \$100,000,000 four per cent treasury notes redeemable in five years became known a number of financiers, who said they represented big French and American banks, even mentioning the name of J. P. Morgan & Co., offered to underwrite the entire issue.

The government declined to consider the proposal as an syndicate of banks and credit establishments has been formed by the Banca d'Italia to place the entire issue in Italy.

Nevertheless, it has been persistently rumored that Mr. Morgan obtained from the syndicate \$10,000,000 worth of these notes at par, but the management of the Banca d'Italia assures the public it is so in the statement and added that there is no reason for any exceptional flow of American gold to Italy.

TITANIC INQUIRY ENDS.

Sir Rufus Isaacs Strongly Condemns California's Commander.

London, July 2.—The board of trade today and Lord Mervyn, the president judge, announced that the report would be produced within a "reasonable time."

Sir Rufus Isaacs, the attorney general, in his closing speech, said he had been anxious to find it possible to excuse for the inaction of Captain Lord, of the California, but he had regretfully come to the conclusion that there was no excuse for him. The court, he said, must find Captain Lord's conduct unsatisfactory.

Lord Mervyn suggested that in Captain Lord saw the signals of distress and did not go to the relief he was probably guilty of a misdemeanor.

Sir Rufus Isaacs asserted that it is unnecessary to state that he has taken up the Titanic, and that the cause of the disaster was a bad lookout and excessive speed.

"During the thirty-six sessions of the court of inquiry, ninety-eight witnesses have been examined and twenty-five thousand six hundred and thirty-one questions put to them."

GOVERNMENT-OWNED ELEVATOR
At Head of Lakes Will Have Capacity of 4,200,000 Bushels.

Ottawa, July 2.—The following official statement was given out today on behalf of the government:

Messrs. J. B. Giesse and W. D. Giesse, members of the grain commission, were in Ottawa today, submitting to Hon. J. D. Ross, plans and specifications for the government elevator to be built at the head of 'Lo' level lake.

The site has been secured and it is definitely decided that the capacity of the elevator shall be 4,200,000 bushels.

The grain commission expect to have the work all under way within a very short time.

Congress of Universities.
London, July 2.—Speaking at the congress of universities of the Empire, Professor William Robertson, president of the University of Edinburgh, said that the universities of the Empire should be regarded as one of the present imperious problems.

Professor Frank Allen, professor of physics, University of Manitoba, urged reciprocity in the recognition of university work as given by the United States.

YOU have only to look around you—among your friends—among your neighbors—to know that they are **MAKING MONEY** every day in real estate investments. How is it being done?

—THESE PEOPLE possess no means other than those which YOU possess. Then HOW do they do it? Simply this: THEY take instant advantage of an opportunity; YOU have been content to wait. Opportunities are just as plentiful today as yesterday, and one is presented to you right here in

COLLEGE TERRACE

THIS PROPERTY is situate facing on the Clover Bar Road, and immediately adjoining the site of the new \$500,000 Alberta College, upon which building operations are about to be commenced. What the University has done for the West End, Alberta College will do for College Terrace. The property is ideally located for homes, commanding as it does a magnificent view of the surrounding country. The laying of the street car line along Clover Bar Road will bring College Terrace into close touch with the business section of the city. DO YOU see any chance here for a good investment? DO YOU?

PRICES are from \$350 per lot up to \$550, according to location, and the terms are one-third cash, balance in 3, 6, 9 and 12 months.

Call at the office for plans, or phone for appointment, and we will motor you out.

DISQUALIFYING.

From destroying private property the English suffragettes have taken to breaking post-office windows, and seem to be making good progress in the work. That they are thereby convincing the Englishman that they should have votes may be doubted. It is a maxim of British government that social order begins at home, and that the individual who best governs himself is best fitted to help govern the community. The suffragettes do not seem to be measuring up to that standard.

"NERVE."

The British tariff advocates are increased that the Government should have appointed free-traders to the Imperial Trade Commission. Those who favor tariff favors are in the process of "upping" the ordinary Canadian representative to the Commission is Mr. E. Foster, a pronounced high-tariff man. But, though low-tariff views prevail in Canada more widely than "protectionist" views in England, there has been no outcry here because of Mr. Foster's appointment, or because some of our low-tariff views were not expressed in his place.

WILLING TO DO BUSINESS.

The nomination of Governor Wilson as Democratic candidate for the Presidency of the United States is an event in which Canadian eyes take some satisfaction. Mr. Wilson has been attacked by one element in his country for his cordial and outspoken admiration of the British Empire and its government. That he suffers in so good a cause should commend him to the good opinions of those who know by experience that the system has served the best yet devised for the management of national affairs. He was also a supporter of the reciprocity arrangement, and is a believer in the general principle of low tariffs and large trade. Whether the fight be a "straight" party fight between himself and President Taft, or whether Col. Roosevelt also enters the lists on behalf of a new independent party, whoever wins in the coming Presidential contest will be committed to the policy of encouraging trade with Canada by the modification of the tariff. It, therefore, that much to be desired modification does not come about, Canadians will know whom they have to blame. With a reciprocity President at the White House Ministers at Ottawa will be enabled to plead the unwillingness of Washington to deal with us when they come to show cause for not having negotiated a trade arrangement with the Republic. Our Government, having cast in their lot with the restrictionist gentlemen, must take the responsibility for it. There will be no putting the blame upon the disinclination of the United States Government to make trade arrangements with Canada.

THE SASKATCHEWAN CAMPAIGN.

The declaration of Mr. Haultain that he seeks peace as a means of strengthening the ties between the British Government when next an appeal is made to the country in Federal affairs, changes the whole complexion and significance of the Provincial election campaign now being fought in Saskatchewan. Though the outcome of that election will be the selection of members of the Provincial Legislature, and the continuance or downfall of the Scott Government, the issue upon which the election is being decided is not by any means the record and policy of the Scott

Government as compared with the record and policy of the men who would be put into power if they were put out. The fight is not now really a fight between the Scott Government and the Opposition, to decide whether one policy or another shall prevail in Provincial affairs; the fight is between the Scott Government on the one hand, and the British Government as represented by Mr. Haultain and his followers on the other; and the question at issue is whether or not Mr. Haultain shall be allowed to establish himself at Regina as an outpost of the restrictionist forces who have secured control of the Government at Ottawa, and who are now endeavoring to strike down the Provincial Ministers who dared to raise a protest against the tariff rule and to declare the rights of the people of Saskatchewan to sell their products where markets for them can be found. Regrettable as it may seem, the limited issues should be pushed aside in this manner and a Provincial election decided upon extraneous questions, the responsibility for giving this turn to the contest lies with Mr. Haultain, and small blame attaches to the Government for not refusing to fight upon the ground on which they were so challenged.

The progress of the controversy has apparently taught the Opposition one fact which they formerly did not comprehend, that the reciprocity arrangement was not killed by the defeat of that arrangement. Through their newspapers the Opposition are now constantly reminding the election of the Scott Government will not bring reciprocity. That, after challenging a fight on behalf of the tariff, the forces and their allies at Ottawa sounds very much like a plea for mercy. Those are the men and the newspapers which last week ago were going to wipe out the Scott Government because its members and supporters had dared declare their approval of reciprocity; yet now they are daily asking the electors to remember that reciprocity was a Federal and not a Provincial affair, and that no Provincial Government could establish itself might want. They have discovered, it seems, that the people of Saskatchewan want reciprocity quite as much as they ever did, and that if their Provincial party is to be punished for its course in relation thereto, it will be Mr. Haultain and not Mr. Scott. This realization, however, should have attracted away from the issue upon which they lately declared they wanted to test public opinion.

The return of the Scott Government would bring reciprocity to Saskatchewan. If the giving of that been were to the Provincial Government the people of Saskatchewan would have had it long ago. But the return of the Scott Government, as the South Government, is demanded by every reason, while reciprocity is desirable. The defeat of that Government would be hailed with delight by the restrictionists at Ottawa and by the interests in whose behalf they are shaping the fiscal policy of the Dominion. It would be boasted that the restrictionist newspapers from one end of Canada to the other as a victory for restriction and a death-blow to tariff reduction. It would be portrayed as reflecting a complete change in the public opinion of Saskatchewan on the fiscal question; as showing beyond all doubt that the farmers of that Province no longer want the privilege of selling their products in the United States; as indicating a willingness on their part to be bound alike by the monopolies to which they must sell and by the mergers from which they must buy. Was not the challenge of the Saskatchewan Opposition upon this question made for the very purpose of aligning with them the monetary backers of the restrictionist Ministry, and of making the fight at Saskatchewan a fight which these men could not afford to ignore? Would not the very newspapers which now profess that reciprocity "has nothing to do with the case" then declare with equal vehemence that the verdict had been given against reciprocity? With this fresh victory on behalf of restriction proclaimed

from the house-top, what could be expected but that the favor-hunters would set their eyes on the Ottawa Ministers for another boost in the tariff schedule? And with the evidence before them of a Western Provincial Government defeated because of its approval of tariff-reduction, in what position would the Ottawa Ministers be to refuse to demand of their voters the right to "pull the wool" over their eyes? The discovery of Mr. Haultain and his friends that reciprocity is a Federal and not a Provincial issue is correct, and it is equally true, they challenged the contest on the ground, declared that they desired power as a means of enabling them to support trade restriction and to fight tariff-reduction sentiment; and should they win their victory would be heralded by every paper of "captains of industry" every restrictionist, every tariff-maker, and every servile apologist for privilege, as warrant for new tariff exactions and continued refusal of the right to trade. Unjust that is what the people of Saskatchewan want, they have no choice but to stand by the men who made their victory their own, and who are fighting their own, and who are fighting for destruction for having dared to do so.

CURRENT COMMENT

Saskatchewan Phoenix—The late W. A. Bennett, of the greatest 3 arms of the nineteenth century, left an estate worth about \$45,000. It is a fact that a man, requires something more than brains if he wishes to make money in this world.

Montreal Financial Times—Some Ontario Conservative papers are now making a disposition to change. They are now making a disposition to change. They are now making a disposition to change.

Montreal Financial Times—The department of labor informed us last week that the cost of living in Canada is continuing to ascend in the most energetic manner. The advertisement about it is that absolutely nobody seems to care. Nobody, indeed, and the teaching profession, who are not valuing contributing to our increased industrial and material prosperity, and who, therefore, receive no sympathy and no aid.

10-YEAR-OLD CHILD MURDERED—Body Found in Railway Tunnel at Perth, Ontario, N.E., July 3.—A man carrying a lantern to light his way as he passed through a cold storage tunnel at one of the Lehigh Valley railroad yards last night, stumbled over the murdered body of a ten-year-old girl, Mary Hilditch, daughter of one of the railroad laborers. The child had been brutally assaulted. The attack was a brutal one, for the body was shockingly mutilated.

Looking For Nice O'Neill—New York, July 3.—The British consul general here has started a nationwide search for Mrs. O'Neill, a British citizen, who has been missing since May 10th, 1911. While last seen in New York city he had with him about \$5,000 in cash.

"YOU'LL SUFFER FROM COLIC"

That's what the Doctor told him

"Fruit-a-lives Cured Him"

CHATELAINVILLE, Ont., Jan. 25th 1911
"For over twenty years I have been troubled with Colic, Bile, and the doctors told me they could do me no good, and that it would be a matter for the rest of my life.
I doctored with different medical men and tried many advertised remedies, but not one of them suited my case.
Nearly a year ago, I tried 'Fruit-a-lives' and I have been cured, and am glad to say that I am cured.
I give 'Fruit-a-lives' the credit of doing what the doctors said was impossible.
I am now seventy-six years old, and in first class health. There is no other remedy that has cured so many cases of so-called 'incurable' kidney disease, as 'Fruit-a-lives'.

This famous fruit medicine actually cures the kidneys, cleanses and strengthens the system—and ridding the system of the waste material and poisons the blood. See a box, 6 for 25c, trial size, 25c. At all druggists and dealers in 'Fruit-a-lives' Limited, Ottawa.

Every man's case last year, and that they were buying the printing of those supporting smokers and subsidizing the press to spread and enlarge their influence. It was in the history of Canada we have seen becoming more rapidly annexed than since the new government came into power. The figures for the last fiscal year are just in and they show that during that year our buying and selling across the border amounted to \$1,000,000,000. During last year our trade with the United States increased in the twelve months by more than one-quarter as much as it had in the preceding century. Our trade with the United States last year amounted to over \$1,000,000,000. The new government has been making good progress in the nine months in power, and has done nothing to prevent the actual economy. Possibly it is not yet too late. Possibly if they hurry they can still save the country. If they really meant that thing that they were saying last summer it is their clear duty as patriots and imperialists to raise their hand to the free flow of commerce in the next economical change.

CHARGED WITH THEFT OF \$6,500 WORTH OF OIL DRILLING PLANT

Count Von Hammerstein, Prospector, Lays Information Against Alfred Violette

DEFENDANT HOLDS RENTAL AGREEMENT

Count Admits He Signed Document Without Knowing Its Purport

A charge of having stolen \$6,500 worth of oil drilling machinery was heard by Police Magistrate Myers in the city police court yesterday. The accused was Count Von Hammerstein, who for years has been engaged in mining and boring for oil on the Athabasca river, and the defendant, Alfred Violette, of the Fort MacKay Oil and Asphalt Company, Windsor, Alberta, city.

Count Von Hammerstein was represented by H. H. Robertson, while the defendant was represented by Frank Park, K.C.

The machinery in question consisted of a sixteen horse power drilling engine of the value of \$1,400, a two horse power drilling boiler of the value of \$1,500, a set of draw works of the value of \$2,000 and a large quantity of boring, steam gauges, piping and accessories of the value of \$1,500, or in all of the value of \$6,500. The machinery had been in use by Count Von Hammerstein for some time, and he discussed with the accused the leasing of the latter. An option, according to the prosecution, was made in favor of Violette, for the sum of \$400. This gave him the right to lease the machinery, but the option was not taken up within the period specified and the lease was forfeited. This was in 1911.

Machinery Moved Away.

The whole story, said Count Von Hammerstein, he was told that his equipment had been removed, whereupon he went to the accused, and some angry words passed. Prosecution said the machinery had been moved seven miles from the place where it was located, and it would cost \$1,000 to bring it back.

In reply to Mr. Robertson the Count said that Violette had neither permission to use nor to move the machinery.

Cross-examination by Mr. Ford: Prosecution said he was a Count of the German Empire. Asked how many counts there were in the family prosecutor said that a year ago there were about 400 members of the Hammerstein family. Some of the males were counts and others had other titles.

Last year prosecutor was in Ottawa and he met the accused at the Russell House. They talked about a boring outfit which he, the prosecutor, had on the market. He entered into an option to lease with the proviso that if the option was not taken up the option was to cease.

Gave Only Option.

Count Von Hammerstein denied that there was any trouble in regard to the lease, but admitted that he subsequently made an affidavit that the machinery belonged to him. He did not do that because of objections that Mr. Violette had raised from the fact that he was not the sole owner. For the \$400 Mr. Violette got the right to consummate the lease.

Asked if he ever got any more money from Mr. Violette Count Von Hammerstein said that he received money for some small tools. Prosecutor further said that he could read and write English very well.

Mr. Ford—Are you in the habit of signing your name in anything without you knowing what you are signing?

The Count—It might be possible. Prosecutor further admitted that a man of the name of Taylor had a partial interest with him in machinery but he never heard that he raised any objection to witness leasing the machinery to Violette.

Receipt for Rent.

Mr. Ford then asked the prosecutor to read out to the court a document which he handed to him which was as follows:

"Received from Alfred Violette, \$500 in full payment of rental and all other charges in connection with the use and occupation of the said machinery, including plant tools and drilling machinery at Fort McKay and in connection with the said payment further guarantee to protect the said Alfred Violette and all parties claiming under him against all claims or payments from any other person or persons by reason of any claims which they may make in respect of or on account of the said machinery."

(Signed) Alfred Von Hammerstein.

The prosecutor admitted that the signature at the end of the document was his own. On reading the contents he said it did not seem right to him and continued to examine the paper closely, holding it up to the light, as though he suspected it was not genuine.

Asked why his associates in Winnipeg were this prosecutor said he had no associates in Winnipeg.

Mr. Ford—You are not a habitué of the court?

Prosecutor—Not at all.

Called Accused Thief.

A witness named Charlie, who said he only arrived from the city since June 30th, was called and he spoke of going to Violette's office with Count Von Hammerstein. He said when the Count met Violette he became nervous and called him a "dope thief" and further, that for some time he would knock the stuff out of him.

John Penn, who is connected with the Athabasca Oil Co. Ltd., of Vancouver, said that he saw the machinery

belonging to Von Hammerstein at Fort McKay on the 3rd June last year. After coming to Edmonton to make a claim he returned down to the Athabasca about a month later and he saw that the machinery had been removed.

Spent \$50,000.

Mr. Ford—The company that Mr. Violette is connected with have spent a lot of money on drilling.

Witness—There is no question about it.

Mr. Ford—They have spent between \$10,000 and \$50,000.

Witness—Persons they have.

R. B. Harvey, foreman in the company of the Fort McKay Oil and Asphalt Co., of which he is second in command, testified as to receiving the equipment belonging to Von Hammerstein on the instructions of Mr. Violette. He and Mr. Violette told him that he had entered into a contract with Von Hammerstein. He said it took him four days to move the machinery.

Defendant Gives Evidence.

Alfred Violette, the defendant, gave evidence as to going to Von Hammerstein's room in the Galtley block last year and witnessing the signing of the document regarding the leasing of the machinery to the accused.

Speaking of the document which he had signed, Violette said that he was unable to read or write English and he had the document drawn up by his solicitor, Mr. H. W. Wainwright, who was represented by Von Hammerstein and by the witness, Mr. Ford, and was signed by both.

Speaking of the invoice at which Mr. Von Hammerstein got angry, witness said that he was about to sign it. The Count and the wife for an automobile ride when he opened his eyes with a start of alarm. Witness waited till he had finished and then showed him the document and put him out.

Witness agreed that the machinery was worth about \$7,000 delivered at Fort McKay. Von Hammerstein allowed him to use it because the machinery would be better in use than when it was made out.

Mr. Ford said that on the present occasion no evidence on case of that had been made out.

Magistrate Myers after having read all the evidence, reserved his decision.

TWO WOMEN AND THE CHAUFFEUR KILLED

Touring Car With Six Passengers Skidded and Overturned on a Country Near Jasper—Victims Were Plunged Under the Automobile

Duluth, Minn., July 3.—Two women were instantly crushed from the back of a touring car which skidded and overturned on a country near Jasper, Alberta, last night. The victims were Misses Mary and Gladys Richardson, daughters of Henry C. Turbin, the lumberman, was severely injured, and lay apparently motionless on the roadside until carried to a nearby farm house, where she was removed to the hospital.

The point at which the tragedy occurred is about four miles from Pika lake. The lake descends in a valley from higher ground to an abrupt turn. When the car arrived at the curve it was travelling at about ten miles per hour. The surface of the road since the turn, with a narrow ditch at the base. The heavy car skidded from the track and when the front wheels struck the ditch the engine was projected into the air and landed with a crash on top.

The party and spent the afternoon and evening at guests of Miss Turbin, and Charles Fitzgerald, at the latter's cottage at Pika lake. The car was owned by Henry C. Turbin, the lumberman. Miss Gladys Richardson, was 20 years old and her home was in Brimont, Conn. She was the guest of Miss Turbin and had been at the home for some time.

Mr. White was about 35 years old. She was the wife of William White, a prominent retired merchant.

Langford Middleton was the son of Mrs. Nellie Middleton, manager of a well known local employment office.

BOWEN-HARRIDGE.

A wedding day a very pretty wedding was celebrated at the church of the Good Shepherd, Calgary. The contracting parties were Mr. J. W. Bowen of Elm Park and Miss H. H. Harridge, of Chadwick Valley, Bowden.

The bride was attended by Mrs. H. H. Harridge, the bridesmaid by Mrs. H. H. Harridge, the best man by Mr. J. W. Bowen, the officiating clergyman being the Rev. C. H. Bailey.

The bride, who was formerly a waitress in a hotel, was a beautiful girl, and was accompanied by Mr. J. W. Bowen, a well known local employment office.

After the ceremony a reception was held at Mr. J. W. Bowen's home, where guests were present and Mr. and Mrs. Bowen were recipients of many kind wishes for a long and happy married life.
